Title: ULHT innovation report - ULHT standard for physiotherapist and				to lead development of a degree apprenticeship occupational therapist							
Author/Responsible Director: Steph Tod/ Jan Sobieraj											
Purpose of the Report: To provide the Board with an update on innovation											
projects, service improvements and good news from across the organisation.											
The Report is provided to the Board for:											
Deci	sion			Discussion							
Assu	ırance			Information							
C	/// Doints										
Summary/Key Points:											
<ul> <li>ULHT has been given government approval to lead on the development of the first ever degree apprenticeship for the roles of physiotherapist and occupational therapist (OT).</li> </ul>											
The degree apprenticeship will provide an alternative route for those wishing to become a registered healthcare professional but who want to combine their studies with on the job training.											
The Trailblazer group, led by ULHT and the Lincolnshire Talent Academy, will develop a nationally recognised standard for these roles.											
The new degree apprenticeship will allow the apprentice to meet the standards required for professional registration and will be developed in partnership with the College of Occupational Therapists, Chartered Society of Physiotherapy and Health and Care Professions Council (HCPC).											
This is fantastic news for the allied health professions and we're delighted that the ULHT proposal to lead the national development has been successful and will play an active role in developing the workforce of the future.											
	endations:										
To note											
Strategic	Risk Register			Performance KPIs year to	date						
Resource Implications (e.g. Financial, HR)											
Assurance Implications:											
Patient and Public Involvement (PPI) Implications.
