

Upper Gastro-Intestinal Multidisciplinary Team

Reference Number: ULHT-LFT-1699 v4

Issued: June 2023

Review Date: June 2025

We are the Multidisciplinary Team (MDT), made up of professionals who will be providing treatment, advice and support for you and your family.

We aim to provide the highest possible standard of care and support for you.

As a team we aim to meet weekly to discuss each individual case, specifically looking at investigations, reports, diagnosis, treatment options and support plans.

Investigations and treatment may take place at hospitals across Lincolnshire and Nottinghamshire. Key members from each of these centres are represented at our weekly meeting and involved in care and treatment decisions.

Each patient is individual, as such they have different needs, requiring specialised care and support. This will form part of your Holistic Needs Assessment (HNA).

Who's who

The core members of our MDT consist of:

- Gastroenterologists
- Surgeons
- Radiologists
- Histopathologists
- Oncologists
- Specialist Nurses

Additional professionals, from other hospitals or the community may also be involved in providing treatment, care and support.

Macmillan Upper GI & HPB Clinical Nurse Specialists

Key workers for patients with cancers of the Upper Gastrointestinal (UGI) and Hepato-Pancreato-Biliary (HPB) systems.
